The FSABC is seeking applications from individuals who are interested in voluntarily participating on a FSABC Committee.

Career enhancement: By volunteering, a member has the ability to network with industry leaders and gain important mentor relationships.

Ability to influence outcomes: Involved members have the ability to champion a cause they believe in ... and influence change in the profession through leadership positions.

More in-depth sharing of ideas among peers: In a leadership position, a member can share opinions at a high level without biases towards their own organizations. Work is focused on the good of the Association as a whole and the 'big picture', or strategic outcomes.

I'm unclear of what is expected if I volunteer

Each committee will be chaired by an FSABC board member. Time is our most precious commodity and the committee chair will ensure that any topics for discussion are forwarded to you in advance of a meeting. There is no need to worry about costly travel expenses or days away from the office. Much can be achieved now through electronic correspondence, online meetings and conference calling.

What are the FSABC committees

Essentially there are three standing committees of the Association:

- ◆ Education Committee
- ◆ Member Services Committee
- ◆ Government Relations Committee

A complete list of the committees and mission statements are included in the attached "[Application Form To Serve On FSABC 2011-2012 Board Committee](#)".

We hope that, as a result of recognizing the value of volunteering, the FSABC will benefit from increased member involvement.

FSABC President Ryan McLane
